# Introduction To Savila Keratin +

keratin treatment is a hair smoothing and straightening method that involves applying a special formula containing the protein keratin to the hair, which helps reduce frizz, improve shine, and makes the hair more manageable.

Offering savila keratin+ treatments in your salon can increase revenue, attract new clients, and improve customer satisfaction due to the desirable results they provide.

& enhance  
color vibrancy

# Why Us

## Gell formula

**Non oily & Easy to Iron light weighted treatment Savila keratin treatment designed to seal and lock in the hair quickly and easily, while also making the hair easier to straighten or style using flat irons. This treatment is intended to provide efficient and effective results .**

## No Wait Time

**No Wait Time Savila keratin treatment that doesn't require an extended waiting period. Traditional keratin treatments often involve waiting for a certain amount of time (usually 30 to 45 mins ) before you blast dry & iron your hair to allow the keratin to properly bond and provide desired results. However, a "No Wait Time" treatment offers the advantage of quicker hair Services.**

## No fade in hair color

**"No Change in Hair Color" Savila keratin treatment is specifically formulated to maintain the color of your hair. Unlike some traditional hair treatments that may lift the color or tone of your hair, a "No Change in Hair Color" keratin.**

## Easy to Iron.

"Seals Quickly & Easy to Iron Savila keratin treatment designed to seal and lock in the quickly and easily, while also making the hair easier to straighten or style using flat irons. This treatment is intended to provide efficient and effective results .

## No White Residue

No Wait Time Savila keratin treatment that doesn't require an extended waiting period. Traditional keratin treatments often involve waiting for a certain amount of time (usually 30 to 45 mins ) before you blast dry & iron your hair to allow the keratin to properly bond and provide desired results. However, a "No Wait Time" treatment offers the advantage of quicker hair Services.

## Even Coverage on hair

Savila keratin treatment refers to a hair treatment that is specifically formulated to provide uniform coverage and benefits to the entire length of the hair, including the ends.

This type of treatment ensures that the keratin is distributed evenly from the roots to the tips, addressing issues and concerns throughout the hair shaft.

# WHAT TO EXPECT AFTER SAVILA KERATIN +

## HOW LONG WILL MY TREATMENT LAST?

Savila Keratin + would last upto 12 weeks also depending on your past chemical history and how sensitized your hair is.

## HOW CAN I MAINTAIN MY HAIR AFTER SAVILA KERATIN + TREATMENT

It is recommend to use only Savila keratin Shampoo & Conditioner for maintenance, after Treatment. It is recommended to wash your hair 2 Times a week.

## CAN HARD WATER BE USED TO WASH HAIR ?

You must avoid use of hard water & hot water. Use only luke warm or room temperature water to wash your hair. Chlorine & sea salt water must be avoided.

## WILL IT STRAIGHTEN MY HAIR ?

No not much - Savila keratin+ is hair Protein treatment doesn't straighten the hair completely. Your hair will be frizz -free, managable, hydrated & shiny

## CAN I COLOR MY HAIR AFTER TREATMENT ?

It is always recommened to color your hair prior to savila keratin + Treatment. Hair color post Treatment may Strip off your keratin Treatment.
